SKILLS

Languages:	Python, C++, java
Frameworks:	HTML, CSS, JavaScript, Django
Tools/Platforms:	MySQL, Amazon Web Services (AWS), Microsoft Azure, Docker, Linux (Basics Commands), Kubernetes
Soft Skills:	Problem Analysis, Cross-Functional Teamwork, Project Coordination, Adaptable and Flexible Mindset

PROJECTS

Multi-Cloud Resource Visualizer GitHub	Feb 2026 - Apr 2026
- Orchestrated a multi-cloud monitoring dashboard to visualize and manage cloud resources across Azure and AWS platforms. - Integrated cloud APIs to fetch and visualize resources from both Microsoft Azure and AWS platforms. - Focused primarily on Azure services for monitoring virtual machines, storage accounts, and resource groups with real-time tracking and detailed insights. - Leveraged Python SDKs (Azure SDK and boto3) to dynamically retrieve cloud resource data. - Designed interactive dashboards with charts and graphs for real-time visualization of cloud infrastructure. - Enabled centralized monitoring of multi-cloud environments, improving resource tracking and overall management efficiency.	
BASTION – Cloud-Based Storage Management System GitHub	Oct 2025 - Feb 2026
- Developed a secure and scalable cloud-based web application using Django for backend and HTML, CSS, JavaScript for responsive frontend. - Implemented robust role-based access control with secure authentication and admin-managed user authorization system. - Integrated AWS S3 for highly scalable file storage and AWS RDS (MySQL) for backend data management. - Deployed the application on AWS EC2 with properly configured security groups and production-ready environment setup. - Utilized IAM roles and .env configuration files to securely manage credentials and access permissions. - Implemented a Bastion Host architecture to securely restrict direct public IP access and enable controlled SSH access to private cloud resources.	

TRAINING

Web Development Training InternsElite Certificate	Jan 2024 - Feb 2024
- Completed structured industrial training in Web Development, strengthening practical knowledge of front-end technologies. - Trained in building responsive layouts, form validation, animations, and interactive web elements. - Improved understanding of MVC concepts, API basics, and real-world website architecture. - Achieved certification validating industry readiness and foundational web development skills. - Utilized this foundational web architecture knowledge as a stepping stone to eventually integrate robust backend frameworks like Django.	

CERTIFICATES

- DevOps and AI on AWS: Upgrading Apps with Generative AI Coursera - Java HackerRank - Privacy and Security in Online Social Media NPTEL - Fundamentals of Network Communication Coursera - Legacy Responsive Web Design freecodecamp	Jan 2026 Nov 2025 Apr 2025 Sept 2024 Sept 2023
---	--

ACHIEVEMENTS / CO-CURRICULAR ACTIVITIES

HackerRank Algorithmic Problem Solving HackerRank	Present
Achieved 5-Star Gold Badge in C++, 4-Star Silver Badge in Python, and a 3-Star Problem Solving Badge.	
Participated in “Code Off Duty” Web Hackathon organized by Coding Wise Certificate	Mar 2024
Demonstrated exceptional creativity, teamwork, and innovation in developing web-based solutions during a 2-day competitive hackathon.	

EDUCATION

Lovely Professional University Bachelor of Technology; Computer Science and Engineering; CGPA: 7.23	Phagwara, Punjab Aug 2023 - Present
Chinmaya Vidyalaya Intermediate; Percentage: 64.4	Bokaro, Jharkhand Apr 2020 - Mar 2022
St. Joseph’s School Matriculation; Percentage: 86.2	Sitamarhi, Bihar Apr 2018 - Mar 2020
